## KL-BAS311-2023PK

全自动贴袋机 (兄弟BAS311HN-05XT)

Full Automatic Pocket Machine (Brother BAS311HN-05XT)

### FEATURE

- With Brother BAS-311HN machine head, this strong model is targeting heavy materials like jeans pocket, or heavy twill denim material.
- Adjustable vacuum positioning system, check materials system are now standard configuration.
- Automatic fold, feed, stitching, stacker, and automatic thread breakage detection.
- New feature is electronic thread tension adjustment, for different section, operators now can set different sewing thread tension as they like.
- Efficiency for normal pocket: 5 pieces per minute, 120 pairs per hour.

### SPECIFICATION

Machine Model	KL-BAS311-2023PK
Machine Head Model	Brother BAS 311HN
Maximun Sewing speed	3000sti/mins
Needle Type	DP*17
Stitch Length	0.05-12.7mm
Sewing Area	90*90mm-250*250mm
Shuttle type	Half-Rotate 2 times Capacity bobbin
Thread Breakage Detection	Equipped
Motor Power	Panasonic Servo Motor 750W
Power supply	220V-204V
Air Pressure/Consumption	0.5MPa/20L/min
Machine Nw	545KG
Machine Gw	650KG2000*123
Machine Size	2000*1230*1560mm
Machine Package Size	2020*1320*1710mm
Machine Feature	Stepping Feet Equipped; Electric Thread Clamp; Quick Jig changing; Quick design making;

## KL-7300A-COIN

硬币口袋贴袋机 (兄弟S-7300A)

Coin Pocket Machine (Brother S-7300A)

### FEATURE

- With Brother S 7300A sewing head, smooth & stable stitch guaranteed.
- Cold-folding mechanism to maximumly improve efficiency.
- Pocket folding / attaching / stacking in one operation for all kinds of fabrics, including stretch.
- Easy moulds changing in only 15 minutes. Efficiency for coin pocket: 320 pockets or pocket facings per hour.

### SPECIFICATION

Machine Model	KL-7300A-COIN
Sewing Head	Brother S 7300A
Needles	DB*1
Max Sewing Speed	3500Rpm; Advised 3000Rpm
Stitch length	1-6mm
Size of pockets	Min: 60*60mm; Max: 120*120mm
Stitching field	X-Y: 170*160mm
Productivity	320 pockets or pocket facings/H
Motor Power	Panasonic Servo Motor 750W
Power supply	220V-204V
Voltage	220V-240V Monno 50/60HZ
Power	0.52KW
Air pressure/Consumption	5.5Bar/65L/min
Dimensions mm L*W*H	1600*1400*1300
Weight(NW)	269Kg
Dimensions mm Packed L*W*H	1320*1520*1490
Weight(Gw)	342Kg

## KL-5D-7300A

全自动免烫贴袋机

Automatic Ironing-Free Pocket Attaching Machine

### FEATURE

- Automatic Kangaroo Pocket Setting Machine is an extra large area Automatic Pocket Setting Machine for big pocket.
- It is an iron free, single needle pocket setting machine. All the processing jobs automatically finish the pockets, improve the pockets quality and working efficiency as well.
- Folding, position, bartacking, sewing, collecting, no need hand working. Easy to operate the machine, easy to change the clamps, and clamps cost very low.
- Efficiency for Kangaroo Pocket: 6-8 pockets per minute.
- One person can operate 2 machines Using this machine can save 8 to 10 workers for factory.

### SPECIFICATION

Machine Model	KL-5D-7300A
Sewing head	TYPICAL GC6730L
Sewing head dimensions	462mm*136mm
Highest sewing speed	3500rpm
Hook	Japan hook
Sewing stitch programming	Input mode of operation screen
Line programming storage capacity	Up to 999 kinds of patterns can be stored
Pressure foot rising height	23mm
Sewing pocket range	X direction 50mm-370mm Y direction 50mm-370mm
Speed of sewing pockets	6-8 pockets per minute
Sewing methods	Bag folding and sewing are carried out at the same time, with protective function of broken thread
Feeding drive mode	SMARTEER motor 550W
Power supply	AC220V
Air pressure and air pressure consumption	0.5Mpa 22dm3/min
Weight	659KG
Packaging Size	186*166*108MM
Volume	3.4CBM

## KL-2PK-2024G

全自动双头贴袋机

Full Automatic Pocket Patch Machine With Double Heads

### FEATURE

- 1. Double head combination, double face thread, double bottom thread, can work simultaneously or separately, flexible, convenient and efficient;
- 2. Quick template replacement, automatic cloth feeding mechanism to meet production needs (optional);
- 3. Pocket chamfering, front and rear screw adjustment, convenient and accurate;
- 4. Thread break detection function and needle cooling function.

KL-311HN-1003C

牛仔裤前襟机  
Left/right J-stitch Unit

FEATURE

- “J” stitch sewing machine is for J stitch sewing on jeans, leisure trousers, uniforms, etc.
- The Jstitch pattern can be programmed by specific programming software which can meet the needs for different trousers. And also can be used on the stitching of pocket pattern.

SPECIFICATION

Machine Model	KL-311HN-1003C
Sewing head	Brother BAS 311HN-5XT
Needles	DPx17(#18-#22)
Max sewing speed	2800RPM By 3.5mm stitch-length
Stitch length	0.05-12.7mm
Sewing area	X-Y:250x115mm
Productivity	300-360 fty/h Depending on style/size
Voltage	220V-240V Mono 50/60Hz
Power	0.80Kw
Air pressure/Consumption	5.5 Bar/9L/min
Dimensions mm LxWxH	1400x1200x1400
Weight(Nw)	260Kg
Dimensions mm Packed LxWxH	7mm
Weight(Gw)	335Kg

KL-254BS

裤襻机  
Beltloop Setter

FEATURE

- Automatic loop loading, loop cuttingloop attaching mechanism.
- Joint Detection Mechanism.
- New program Quick Designing Operation System.
- Easy touch screen.
- Loop Width 8-22mm.
- Finished Length of Beltloop 48-78mm.

SPECIFICATION

Machine Model	KL-254BS
Maximum Sewing Speed	2800sti/min
Loop Width	10-32mm
Finished Length of Belt loop	48-78mm
Needle Type	Dpx17
Shuttle	2 times capacity bobbin
Thread Breakage Detection	Equipped
Motor Power	750W
Power Supply	220V
Air Pressure/ Consumption	0.5MPa 1.8 l/min
Machine NW	230KG
Machine GW	287KG
Machine Size	1220x1220x1430mm
Machine Package Size	1320x970x1480mm

Waistband Unit (1104P)

FEATURE

- Full optional free arm waist band unit with needle feed for extra heavy duty;
- Hohsing direct drive servo motor ,Automatic presser foot lifter, Curved and/or straight waist bands can be done with the unit All kinds of different waist bands tyles, dependingon the folder;
- Single waistbands entry or waist bands from roll, Waistband cutting frontand end programmable (Sensor), Skip stitch front and end program mable(Sensor), Easy visual programming system over touch screen.

SPECIFICATION

Machine Model	KL-FBX1104P-2023WB
Maximum Sewing Speed	4000sti/min
Sewing head	FBX10014p
Productivity	180-210 trousers/h single belt from roll
Needle Type	Dvx57 14-25#
Stitch length	4-12 Stitch/inch
Voltage	220V-240V Mono 50/60Hz
Motor Power	500W
Air Pressure/ Consumption	5.5Bar / 1L/min
Machine NW	115KG
Machine GW	165KG
Dimensions mm LxWxH	1050x580x1260
Dimensions mm packed LxWxH	1320x720x1420

牛仔裤中缝机  
Yoke Joint Sewing Machine

FEATURE

- Sewing head:JUKI: MH380FU-AC; PEGASUS: MX3216-A04;
- Separately adjustable stitch lengths for overlock and topstitching, With special designed edge aligning device to ensure pliant entering, Intergration of feeding,sewing , trimming,stacking;
- Setting via touch screen, Productivity:average 5 to 7 second /pcsApplicable fabric:light to heavy fabric.

SPECIFICATION

Machine Model	KL-38MX-2024B
Sewing Head	JUKI:MH280FU-AC PEGASUS:MX3216-A04
Operation Way	Seat
Seam Allowance From Edge To Stitch	Adjustable
Applicable Fabric	Light To Heavy
Motor Power	2.5KW
Power Supply	AC 200V
Air Pressure/ Consumption	0.5MPa 1.8 l/min
Machine Size	L2000xW1150xH1100mm

FEATURE

- Iron eliminated. Pocket folded via special physical instruction;
- Automatic fabric loading mechanism, auto-folding, easy-pattern setting system, sewing consecutively;
- Applicable to different types of pockets;
- Auto fabric collecting mechanism;
- High-efficient production: 150-180 pcs/hour on average;
- No requirement for the technical operation ability;
- Apply to Knit/ Woven light Medium Weight Fabric;

SPECIFICATION

Machine Model	KL-7300A-2023MS
Machine Head Model	Brother S7300A-303P
Maximum Sewing Speed	3000sti/min
Needle Type	DBx1
Sewing Area	200x200(Standard)/Min 72 (W)x78(L)
Needle Thread Breakage Detection	Equipped
Stitch Length	0.05~12.7mm
Motor Power	Panasonic AC Servo Motor 750W
Power Supply	220V
Air Pressure/Consumption	0.5Mpa/10L/min
Machine Nw	395KG
Machine GW	492KG
Machine Size	1670x1270x1530mm
Machine Package Size	1650x1250x1400mm

FEATURE

- Both left & right sleeve placket can be sewn in one machine;
- Machine with Color Match function;
- Sleeve vent/placket sewing size can be customized;
- More than twice efficiency of traditional way: 1 ordinary worker can make more than 4 workers can do in 1 hour production;
- Innovative New Operation System , Easy Program Mechanism;
- Easy Jig Change Mechanism;
- Skilled worker unneeded. Only one ordinary worker required;
- Less Second Time rework. Always offering a stable and pliant stitch with minimum seam allowance 1 mm.

SPECIFICATION

Machine Model	KL-7300A-2023SVU
Machine Head Model	Brother S7300A-303P

- ALL-IN-ONE design of auto-feeding , auto-sewing , auto-stacking;
- Multiple operation mode for more production;
- 2-3 units can be operated by 1 operator,as well in combination with the bottonhole unit;
- No skilled operators required for this operation;
- High precision on servo motor feeding between buttons;
- Laser light for correct positioning of the garmentr;
- Date can be quickly transferred between different machines by USB or SD-Card;

### SPECIFICATION

Machine Model	KL-LK1903SSS-6006A
Sewing Heads	Juki LK 1903BNS Brother BE-438HS
Needles	DPX17(#11-#14)
Max Sewing Speed	Max.2700Rpm
Button type	4 holes 2 holes standard 3and 5 holes optional
Button range	Diameter 9 to 20mm thickness 1.8 to 4mm
Stitching range	Max 660mnMax 51 mm interval
Productivity	5 buttons:~/h 6 nuttons:~/h
Voltage	220V-240V Mono 50/60Hz
Power	0.80KW
Air pressure/Consumption	5.5 Bar/180L/min
Dimensions mm LxWxH	2300x1500x1200
Dimensions mm Packed LxWxH	2220x1120x1480
Weight (Nw/Gw)	322Kg/414Kg

## KL-MB300E-7300A

自动打褶机  
Automatic Pintuck Sewing Machine

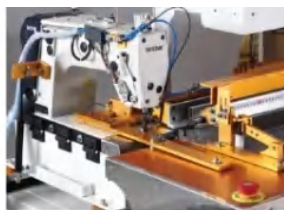

### FEATURE

- One worker can operate 4 machines at the same time, which effectively saves labor costs;
- It can also be used for elastic knitted fabrics, a major breakthrough in technology, better for customers;
- Computer PLC display operation interface, input the required data in advance before work, and calculate the production capacity at the same time;
- The length and width of each pleat can be adjusted, and the distance between each pleat can be adjusted;
- Widely used in shirts, home textiles, striping and pleating PTV processing. Suitable for woven, knitted and other elastic fabrics;

Extra large space for better operation

BROTHER or JUKI sewing machine heads

Computer control, easy and fast operation

Stepper motor, stable and accurate

## KL-8020A

## KL-81P

自动切岭咀反领焗领机  
Automatic Collar Tips Cutting and Reverse Ironing Machine

### FEATURE

- With automatic collar trimming, turning and blocking functions;
- With long mold for pressing, it can press a whole collar in one time;
- With automatic stacker, it can boost productivity;
- Auto pressure regulation with constant temperature helps uniform the product;
- PLC control ensure the precision of time, equipped with digital temperature controller;

### SPECIFICATION

Machine Model	KL-81P
Power supply	1PH/220V/50Hz
Total Power(KW)	1.5

KL-AC1501-EX5100D

自动罗纹袖口缝纫机  
Automatic Rib Cuff Sewing Machine

FEATURE

- This product is a new type of garment processing equipment, an automatic machine for sewing rib on cuffs and cuffs;
- The machine is equipped with a mop wheel device to maintain the stability of clothing materials during operation;
- The electronic control system automatically adjusts the size, pneumatic and electric automatic size control, and is equipped with an automatic material receiving device, a machine head edger, an automatic expansion device, an automatic cutting line, etc;
- It is suitable for the cuffs of sanitary clothes, sports pants and so on Automatic sewing equipment for cuffs, various knitted fabrics, sports autumn and winter clothes, etc.;

SPECIFICATION

Machine Model	KL-AC1501-EX5100D
Air pressure	6KG
Speed	4000RPM
L*W*H	120*76*150
Size range	16-30CM
Capacity	4800PCS/8 hour

KL-GK1278-3664

自动包缝下摆缝纫机  
Automatic Coverstitch Bottom Hemmer Machine

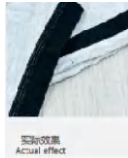

FEATURE

- Automatic machine products, with fast sewing speed, sewing operation speed of 4000 rpm, and single machine production of 180-240 pieces per hour. One worker can operate two machines simultaneously, with a production quality qualification rate of 97% and a product downtime rate of about 1%;
- Fully automatic cylindrical hem sewing is completed at one time, paired with two stitches, four threads, or three stitches, five threads;
- The stretch sewing machine is equipped with a left trimming and cutting device, electric or pneumatic size control of the spreader wheel, advanced edge guide and automatic hem folding design, and an automatic stacking system;
- It is a high productivity and high-quality machine;

自动POLO衫锁眼机  
Automatic Polo Shirt Button Holing Machine

KL-PST-86TJ/KL-PST-86TJ-YX

多功能双工位自动橡胶接料机  
Multifunctional Dual Station Automatic Rubber Splicing Machine

FEATURE

- Suitable for button holing on Polo shirt front placket;
- The machine can finish the vertical and horizontal directions of button holes' sewing and cutting all together in seconds. Very high speed;
- The distance between holes and angle can be adjusted easily through touch screen panel;
- The most popular 10 programs already preset in the system. You can also set the parameters according to your job requirement;

SPECIFICATION

Machine Model	KL-203-LBH1790AN
Watt	2200W
Voltage	220V
Air consumption	0.5~0.6Mpa
Speed	3200 rpm
Net weight	192kg
Machine Size	860 *750*1250mm

## KL-GA997-3820D

高速自动翻切螺纹袖口机  
Automatic String Thrusing Machine

### FEATURE

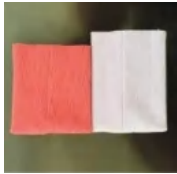

- This equipment can be used to cut cylindric fabrics or to cut cylindric fabrics with sewing, and the maximum speed is about 60 pieces per minute;
- It can be matched with the flat sewing equipment of various brands for automatic sewing and cutting;
- Self-compiled control program can change various cutting methods according to customer requirements.
- Multi-group memory storage, quick and convenient for switching and calling at any time;
- The ingenious and coherent mechanical structure design makes the turn-over and material collection complete at one time, thus achieving high efficiency;

### SPECIFICATION

Machine Model	KL-GA997-3820D
Flipping half size	4-12.5CM
Flipping width	4-11CM>11CM (requires customization)
Efficiency(minutes)	60 pieces
Voltage	AC110/220V
Air pressure	>0.8KPA

Cylinder effect

Sewing effect

## KL-B23-7300A

自动POLO衫门襟定型机  
Automatic Polo Placket Setter Machine

### FEATURE

- Automatic feeding function, precise positioning;
- Laser positioning function is available for both fabric laying and sewing.
- The suction function prevents the fabric is staggered from up and down;
- Protective cutting knife function prevent fabric shifting during cutting,
- The cloth pressing plate extension function. The screw motor can automatically adjusts the size of the pressing plate, and also can extend the cloth pressing plate to make the sewing more smoothly;
- Automatic collection function;
- Capacity: 2,400 pcs/person (8 hrs);
- Suitable for sewing various types of plackets;

### SPECIFICATION

Machine Model	KL-B23-7300A
Cutter Device	Can be installed with single or double knives
Cutting Mode	Center single cutter, variable edge cutting; Center double cutter, adjustable cutting width.
Air Pressure	0.5-0.6 MPa (5-6 kg f/cm <sup>2</sup> )
Needle	Dpx17
Control System	Microcomputer control
Sewing Precision	±0.02mm
Sewing Needle Pitch	1.00-5.00mm
Sewing Speed	400-4000 rpm
Sewing Width	1.00-50.00mm
Sewing Length	1.00-320.00mm
Sewing Time	3-8 seconds/pieces/10 hours
Production Efficiency	2500-3500 pieces/10 hours
Automatic Feeding device	Negative pressure position
Net weight	370KG
Packing size	1650mmx500mmx1600mm

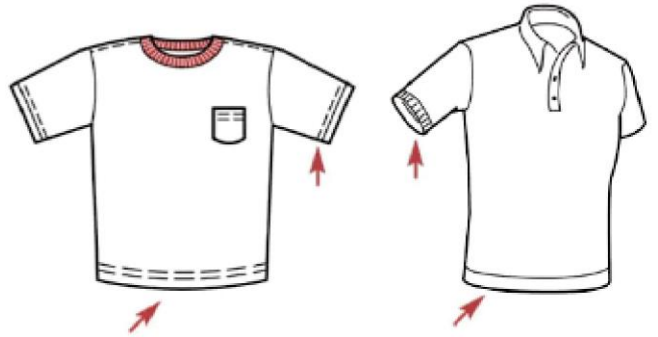

## KL-SAF-W664

自动折边开口缝纫机  
Automatic Folding Open Type Hem Sewing Machine

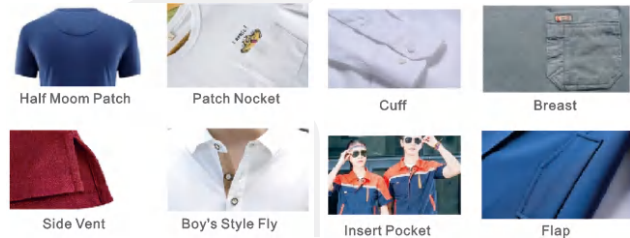

### FEATURE

- Suitable for T-shirt single-piece automatic folding and swinging sewing;
- Patented clothes hanger automatically synchronizes the back stack of sewing;
- Operation of the first undercut sewing process;
- Automatic folding pendulum device to control folding distance,
- The starting and ending stitches are exactly the same;
- Automatic Induction Blowing Auxiliary Device;
- Visual Intelligent Operating Panel Control;

#### 单双针综合送料同步车

Single Double Needle Compound Feed Lockstitch With Auto Thread Trimmer

1. The powerful feeding system with bottom feed, needle feed and alternating top feed guarantees trouble-free and displacement-free material feed.
2. The lifting height of presser foot up to 20 mm which is facilitates the feeding and removing of heavy weight materials.
3. The high top feed stroke up to 9 mm allows a safe climbing over differently high material plies.
4. Large working space (335mm width and 295mm height) which is easier for sewing large area materials.

## KL-335TD/335T

### 单针筒式综合送料平缝机(自动剪线)

Single Needle Cylinder Bed Compound  
Feed Lockstitch (Pfaff type)TD: Direct  
drive type with thread trimmer function

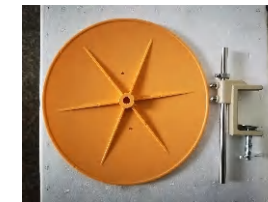

#### Features:

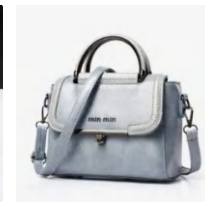

- 1.Model:  
KL-335A:Normal type,small hook;  
KL-335A-LG:Normal type,large hook;  
KL-335B:Blinding attachment set type,small hook;  
KL-335B-LG:Blinding attachment set type,large hook;
- 2.Very good feeding properties due to the unison feed. When several layers are overlapped and sewn, the inner layer will not move;
- 3.The new needle column seat is more stable when sewing, reduces needle and thread breakage, and can sew perfect lines;
- 4.Precise and consistent stitch setting at large spectrum of materials/fabrics;
- 5.Used for blinding use,shoes,purses,belt.etc.;For sewing bag sofa;For shaping sport apparatus.

Normal type parts

Blinding attachment  
set type parts

## 单针筒式综合送料平缝机

Single Needle Cylinder Bed Compound Feed LockstitchTD: Direct drive type with thread trimmer function

### Features:

- 1.The powerful compound feeding system including feeddog feeding, needle feeding and alternating presser footfeeding, guarantees feeding material freely without shift.
- 2.The lifting height of presser foot can reach 20mm which is convenient to sew heavy materials.
- 3.Max.alternation of presser foot reach 9mm which can sew differential thick materials.
- 4.Large working space (335mm width and 125mm height) which would be easier for large area materials.
- 5.Efficient basic functions such as automatic thread trimmer, automatic back tacking ,walking foot and pneumatic presser foot lifter .

### 双针杆床垫包缝机

DOUBLE NEEDLE BAR  
MATTRESS OVERLOCK MACHINE

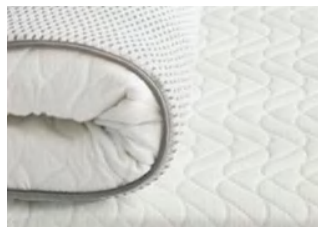

### Advantage:

1. Synchronous feeding structure with excellent feeding performance, even very thick fabrics can go through easily while it often failed in other types of sewing machines.
2. Both thick and thin fabric can be easily processed.
3. Automatic cooling and lubrication system.
4. Lubricate system did optimization more durable, highspeed reach to 3500rpm.
5. Pneumatic pressure foot lifter, needle gauge can choose from 16mm/27mm/35mm or customization.

### Application

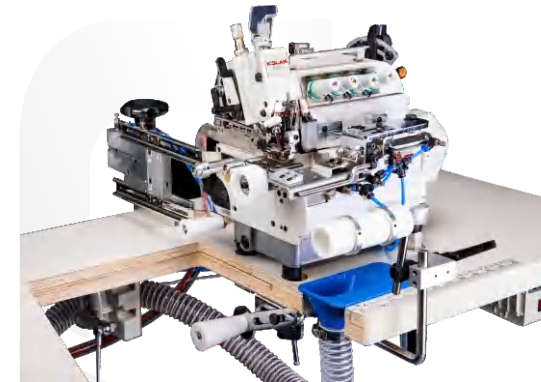

Machine suitable for different kind of mattress/sofa/mat etc.

KL-530A-9000C

线内模板机  
Inline Template Machine Series

FEATURE

- The machine head is JUKI9000C, an oil-free machine head imported from Japan, and other domestic or imported machine heads can be optionally equipped;
- Stable spark control system, other optional;
- Adopting X, Y axis double screw rod, multi-slider structure, light sound, small vibration, accurate precision, stable use;
- Ultra-high power suction system, the suction is automatically turned off when the equipment is sewing, effectively avoiding the shape displacement of the stop;
- Optional laser function, effective for attaching pocket,POLO placket and other processes;
- Optional POLO cedar foot fork function;
- Adopting the follow-up middle presser foot design, programming according to the thickness of the fabric, suitable for various thick and thin fabrics, improving the process quality;
- Equipped with a special auxiliary large presser foot, it can effectively prevent the fabric from moving during the sewing process, and the sewing process quality is more guaranteed;

SPECIFICATION

Machine Model	KL-530A-9000C
Needle type	DP*5
Needle pitch	0.5-8mm
Press foot travel	0-13mm
Sewing range	500*300mm
Transmission system	Double screw
Maximum sewing speed	100-4000
Vacuum motor power	0.2KW
Display	7 inch LCD display
Control system	Microcomputer control
Template recognition function	RFID intelligent identifier
Supported file format	NSP(DHP/DXF/DST/PLT/DT)
Product specification	L1250*W1150*H1200mm
Packing box specification	143CM*125CM*133CM
Net/gross weight	200KG/220KG
Power/air pressure/power consumption	Single-phase 200 to 240V/0.4Mpa/1L

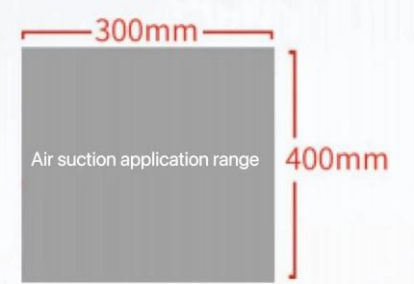

KL-1390A  
自动模板机  
Automatic Template Sewing Machine

KL-1390A-360  
头部旋转模板机  
Head Rotating Template Machine

KL-8050A

高速智能干式工艺模板机  
High Speed Intelligent Dry  
Process Template Machine

FEATURE

- Green sewing:The needle bar and other machine head mechanisms adopt oil-free lubrication dry technology,making sewing oil-free;
- Rotary shuttle oil supply structure:The oil quantity of the rotary shuttle adopts an active oil line supply structure and electronic control technology for oil quantity adjustment;
- Medium pressure foot structure:Adopting a motor driven medium pressure foot structure,the machine has a wider adaptability and can prevent running wires,needle lifting and detachment, bird's nest and other functions;
- Template automatic recognition system:RFID sensor,no manual input,time-saving,accurate and efficient;
- Rat proof design:The model adopts a rat proof design,which is friendly towires and trachea;
- Thread cutting mechanism:Adopting an electromagnetic cam hook knife front structure,stable thread cutting and convenient maintenance;
- Used for sewing various assembly line production processes that require a certain skill level for lathe workers,such as front plackets, upper zippers,shirt collars,bag covers,trademarks,small pieces of down cotton clothing,and pockets;

SPECIFICATION

Machine Model	KL-8050A
Sewing range (XxY)	800x500mm
Maximum sewing speed	3000r/min
Dose the machine head rotate	no
Lifting height	no
Needle pitch length	0.5-12.7mm
Machine needle	DBx1 8#(7#-14#)
Rotary shuttle	Double the spin
Working stroke of the middlepresser foot	4mm
Maximum number of stitches fora single pattern	80000
Number of stored patterns	999
Number of identification templates	999
Program input method	U disk/Cloud platform
Rated power	750W
Rated voltage	200V±20%
Platform unfolding size(LxW)	1441x1200
Packaging box size(L*W*H)	1602x1350x1334
Machine net weight	280/350

KL-516  
太阳花、手风琴专用电脑控制打褶机

Special For Sunrary&Accordion with  
Computer Control Pleating Machine

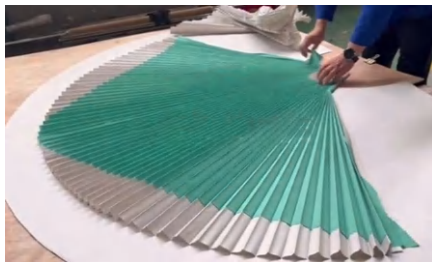

FEATURE

- It is equipped with two servo motors;
- Transmission by screw rod;
- Pleat height at two sides are regulated at random;
- Applicable to pleat accordion;
- Applicable to pleat a combination pattern of high and low;
- It comes with SS304 table and 90cm width (customized), the pleat height is adjusted by touch screen;
- Dedicated to fabrics, chiffon pleated, nylon pleated, this pleating machine features a single vertical sunburst accordion pleat pattern, efficient only on ysunray fabric pieces;

SPECIFICATION

Machine Model	KL-516
Max. folding width	1600mm
Pleat size	0.5cm-5cm
Motor size	0.75kW+60W
Servo motor power	0.75kW*2
Heating power	1.5kW*6
Size	2600*1700*1600mm
Packing size	2650*1140*1650mm
Net weight	900kgs
Gross weight	1100kgs

A1系列数控皮革冲孔机(单工位)  
A1-Series CNC Leather Punching Machine(single station)

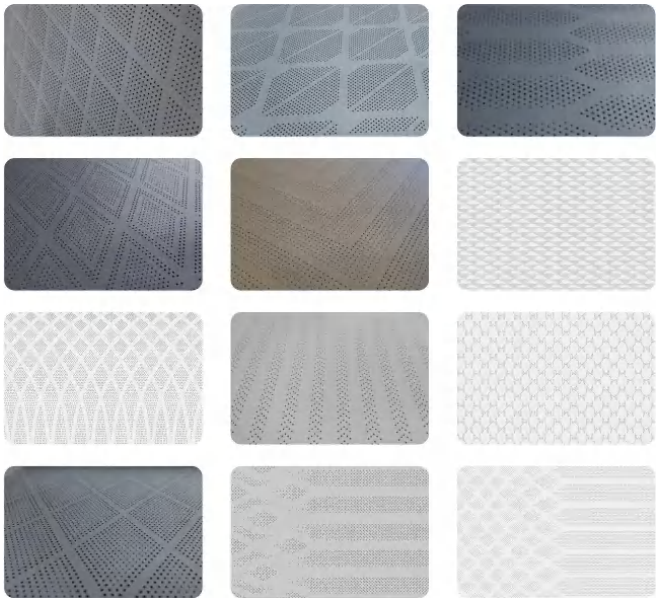

FEATURE

· It is economical,light and compact machine for repacking market.It is suitable for repacking workshops,sample room of car seat factories and dedicated punching workshop;

A1-S2

A1 系列数控皮革冲孔机(双工位)  
A1-Series CNC Leather Punching Machine(double station)

SPECIFICATION

Machine Model	A1-S1-4-6090	A1-S1-6-80100
Model Specification	1 station 4heads High speed	1 station 6 heads High speed
Punching area(mmxmm)	600x900	800x1000
Punching speed(holes/min)	1000	1000
Hole size(mm)	0.6~3	0.6~3
Punching head quantity(pcs)	4	6
Machine power (kW)	220V/1.2kW	220V/1.2kW
Machine size(mmxm)	1.64x1.26x1.4	1.77x1.60x1.45
Wood packing size(mmxm)	1.87x1.70x1.55	1.87x1.70x1.55
Machine net weight(kg)	1000	1000

FEATURE

· It is economical,light and compact machine for repacking market.It is suitable for repacking workshops,sample room of car seat factories and dedicated punching workshop;

SPECIFICATION

Machine Model	A1-S2-6-10070
Model Specification	2 station 12 heads High speed
Punching area(mmxmm)	(1000x700)x2
Punching speed(holes/min)	1800x2
Hole size(mm)	0.6~3
Punching head quantity(pcs)	6x2
Machine power (kW)	220V/2.5kW
Machine size(mmxm)	3.53x1.80x1.39
Wood packing size(mmxm)	3.63x1.90x1.43
Machine net weight(kg)	2633

A2

A2 系列数控皮革冲孔机  
A2 Series CNC Leather Punching Machine

FEATURE

· It is used for personalized perforation of leather products like shoes、bags、belts、sofas、etc.It can punch 4-6 different patterns in the same leather pieces.Suitable for leather processing and punching workshops;

SPECIFICATION

Machine Model	A2-G1-R4	A2-G2-R4	A2-G1-R6	A2-G2-R6

B1  
B1 系列模具式冲孔机  
B1 Series Mould Punching Machine

FEATURE

· It is suitable for punching leather such as car seat cushions, car headrests, steering wheel covers,sofas, shoes, bags, etc, The machine has high punching efficiency, large output, stableperformance, and is simple and easy to use

SPECIFICATION

Machine Model	B1-600	B1-600-F
Material type	Piece	Piece
Max. leather width(m m)	600	600
Max.punching speed (strokes/min)	180	180
Materialthickness(mm)	0.5~3	0.5~3
Number of punching needles	300	300
Machine power(kW)	3P/380VAC/3.5kW	3P/380VAC/3.5kW
Machine size(mxmxm)	1.40x0.60x1.20	2.17x1.08x0.92
Wood packing size(mxmxm)	1.50x0.65x1.30	2.27x1.17x1.00
Machine net weight(kg)	500	850

B2-800  
B2 系列模具式冲孔机  
B2 Series Mould Punching Machine

FEATURE

· It is used to punch holes in leather for car seats, headrests, steering wheel covers, sofas, shoe uppers, bags and so on. It is easy to operate with stable performance and high efficiency. It is suitable for leather factories, leather traders, car seat cover factories, and dedicated punching workshops.

SPECIFICATION

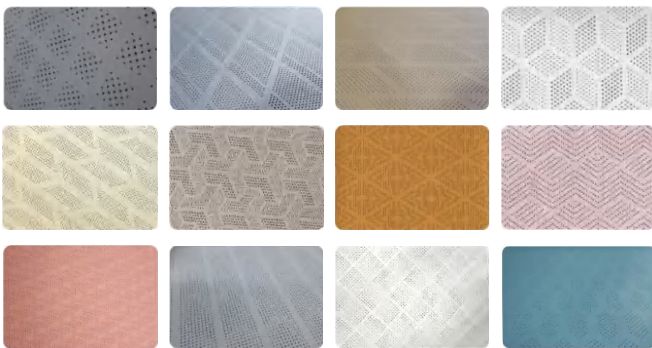

Machine Model	B2-800
Material type	Piece
Max. leather width (mm)	800
Max. punching speed (strokes/min)	180
Material thickness (mm)	0.5~3
Number of punching needles	640
Machine power (kW)	3P/380VAC/5.5kW
Machine size (mm)	2.90x1.37x1.24
Wood packing size (mm)	3.0x1.47x1.34
Machine net weight (kg)	1650

B3-800  
B3 系列模具式冲孔机  
B3 Series Mould Punching Machine

FEATURE

· It is used to punch holes in leather for car seats, headrests, steering wheel covers, sofas, shoe uppers, bags and so on. It is easy to operate with stable performance and high efficiency. It is suitable for leather factories, leather traders, car seat cover factories, and dedicated punching workshops.

SPECIFICATION

Machine Model	B3-800
Material type	Piece
Max. leather width (mm)	800
Max. punching speed (strokes/min)	180
Material thickness (mm)	0.5~3
Number of punching needles	640
Machine power (kW)	3P/380VAC/5.5kW

Head Rotate Head Lift Template Sewing Machine

KL-SJ0356-6-D4  
升降式直驱自动剪线复合送料厚料缝纫机  
Lifting Type Direct Drive Automatic Cutting Line  
Composite Feeding Thick Material sewing

FEATURE

- This model is a new breed independently developed by GULI with the introduction of advanced German core technology. The machine head can intelligently control the lifting, perfect sewing, sewing operation in any range of lifting operations;
- The machine adopts the connecting rod type feeding structure, which has good durability and balanced feeding. For the bulk-type sewing material and the medium-thickness sewing material with large submergence, the feeding amount of the upper and lower layers can be consistent during the sewing process;
- The built-in integrated computer control technology provides stable performance and strong anti-interference ability;
- The use of a large rotary hook reduces the number of bottom line changes and improves work efficiency; the use of fully automatic lubrication devices improves the service life of the machine;
- With voice broadcast, USB socket, new double action knife trimming structure, sealed bottom oil pan, automatic needle position, automatic needle number, automatic counting needle stitching, electronic clamping line, automatic lifting foot and other intelligent Sewing mode;
- Suitable for sewing medium and thick materials, bags, leather, leather products, sofas, etc.;

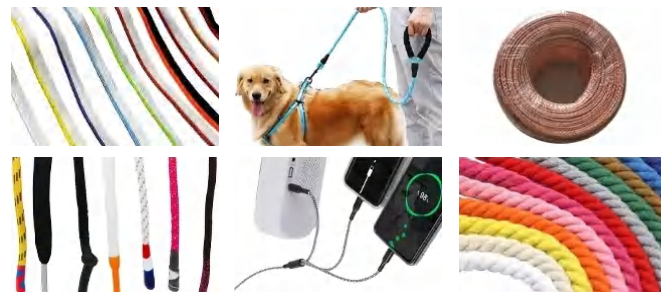

# KOLAM

## KL-90S

90 系列高速编织机

90 Series High Speed Braiding Machine

### FEATURE

- The machine are commonly used to braid many kinds of both round&flat ropes/cords/laces(shoelaces, handbag laces, tow ropes, luggage ropes, fishing line, fiberglass sleeves, high pressure rubber hose, decoration ropes, aerial ropes, elastic ropes, etc) and cables(high temperature wire, shielded cable, stainless steel wire braided flex hose, etc.);
- The base is with aging treatment, not easy to be out of shape;
- All vane wheels in same level to reduce resistance when running;
- Two pieces of well-constructed board, easy to assemble;
- Board with heat treatment to increase hardness and abrasion proof;
- Add molybdenum disulphide grease on vane wheel, abrasion proof and lubrication;

### SPECIFICATION

Machine Model	KL-90S
Spindle	16
Head number	4
Dials size(mm)	90
Braiding type	round
Bobbin size(mm)	Φ43*140/175/195
Braiding range(mm)	Φ1-8
Speed (RPM)	300

## KL-3811-9

智能缩缝机

Intelligent Shrinkage Sewing Machine(crochet chain sewing)

### FEATURE

- Equipped with 9-stage automatic cycle speed change function, easy to operate with automatic memory of needle count, suitable for various special products for sewing;
- 14 sets of memory parameters can be set to reduce the debugging time for changing materials;
- The new structure of crochet chain sewing reduces the time for replacing the shuttle core and bottom thread;
- The touch screen integrated human-machine interface is simple and convenient to operate;
- This series is divided into two models, one is Shoe Making Specialized Shrinking Machine and the other is Sofa Specific Wrinkling Machine;

## KL-210E-130\*60/KL-210E-220\*100

带输入功能的电脑花样机 (13\*6cm/22\*10cm)

Computer Controlled Cycle Machine With Input  
Function(13\*6cm/22\*10cm)

## KL-221E-300\*200

带输入功能的电脑花样机 (30\*20cm)

Computer Controlled Cycle Machine With  
Input Function (30\*20cm)

### FEATURE

- The clear figures interface make the operation much easy.The shape of pattern can be shown on the screen when the user edits the pattern,which provides convenience to user for confirming and modifying the pattern data.
- The sewing machine is best-suited to the sewing of large labels and emblems,the sewing of two or more pieces of samll labels and emblems at one time,and the shape-tacking of bags and shoes.

## PATTERN MACHINE SERIES

花样机系列 / 125-126

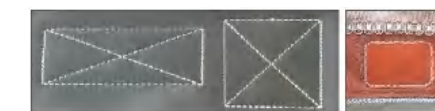

### FEATURE

- The clear figures interface make the operation much easy.The shape of pattern can be shown on the screen when theuser edits the pattern,which provides convenience to user for confirming and modifying the pattern data;
- The new added electronic thread holder is controlled by the solenoid.The user can change the upper thread tension via the operating board at will,which improves the accuracy for adjusting the upper thread;
- The system uses the most-generally used USB convertor to realize the transfer of the patterns and the update of program;

### SPECIFICATION

Machine Model	KL-210E-130*60	KL-210E-220*100
Sewing area	130mm*60mm	220mm*100mm
Length of stitch form	0.1-12.7mm(Min Resolution:0.05mm)	
Memory capacity	Max:40,000 stitches	
Adjustable middle presser foot down position	0-3.5mm	
Middle presser foot lifting height	20mm	
Out presser foot lifting height	25mm	

Function of scale up/down  
The X or Y axis can be scaled up or down at will from 1~400% individually when sewing the paterns,(Step 1%)

## KL-224E-600\*400

带输入功能的电脑花样机 (60\*40cm)

Computer Controlled Cycle Machine With  
Input Function(60\*40cm)

### SPECIFICATION

Machine Model	KL-224E-600*400	KL-221E-300*200
Machine Head Model	600mm*400mm	300mm*200mm
Length of stitch form	0.1-12.7mm(Min Resolution:0.05mm)	
Memory capacity	Max:50,000 stitches	
Adjustable middle presser foot down position	0-3.5mm	
Middle presser foot lifting height	20mm	
Out presser foot lifting height	25mm	

Function of scale up/down  
The X or Y axis can be scaled up or down at will from 1~400% individually when sewing the paterns,(Step 1%)

## KL-G3020

电子花样机  
Electric Pattern Machine

### FEATURE

· This machine adopts liquid crystal touch-pad display panel for In putting the sewing patterns, Simple operation with photograph and instructions.Improvement of presser foot mechanism working holder lifting height from20mm to 25mm, and the stepping foot lift improved from 10mm to 18mm.With top-class servo motor system and help functions, when you meet with an error with PLK-E series, the solutions will show in the Screen automatically, so that, users could solve the problems immediately.

## KL-E3520

电脑花样机  
Electric Pattern Sewing Machine

### FEATURE

· Adopts liquid crystal touch-pad display panel for inputting the sewing patterns, Simple operation with photograph and instructions.  
· Improvement of presser foot mechanism working holder lifting height from 20mm to 25mm, and the stepping foot lift improved from 10mm to 18mm.  
· Sewing range: 300mm\*200mm.  
· Auto trimmer & foot lifter & back tack & needle position.

### SPECIFICATION

Machine Model	KL-E3520
Sewing Head	Dpx17
Needles	2
Max Sewing Speed	300x200
Stitch length	0.1-12.7(BY 0.05)
Size of pockets	18
Stitching field	2500
Productivity	1080X680X550
Motor Power	140/160

## KL-326G

直驱电脑花样机  
Computer Controlled Cycle Machine

### FEATURE

· Smooth and beautiful stitches can be produced with a minimum resolution of 0.05 mm.Since the data is resolved at 0.05 mm per pulse for the feed, slanted lines and curves are accurately sewn with beautiful finishes. Also, a simple single point embroidery motif can be sewn, and embroidering on heavy materials, which is not easy with a general embroidery machine,is also possible.

## KL-342G

直驱电脑花样缝纫机  
Direct Drive Computer-processed Pattern Sewing Machine

### FEATURE

· Garment: Widely used in sewing shoes, clothing trademarks, Velcro, pocket decorative lines, pocket appliques, bag covers, epaulettes, drawstrings and other graphic stitches;  
· Luggage and automobile: Widely used in sewing graphic money stitches of medium and thick fabrics and leather fabrics such as luggage decorative lines, luggage zippers, luggage, trademarks, and car seat cushions;  
· Other categories are widely used in sewing graphic patterns such as helmets, hat brims, gloves, pillows, and elastic bands;

### SPECIFICATION

Machine Model	KL-342G
Machine Head Model	300mm*100mm
Length of stitch form	0.1-12.7mm(Min Resolution:0.05mm)
Maximum rotational speed	Max:2700
Interval presser foot stroke	0-10mm
Program quantity	9
Interval presser lifting amount	22mm
Weight	520/550

## KL-3525-JG

多功能激光开袋机

Multi-function Laser Bag Opening Machine

### FEATURE

- It uses Mitsubishi pattern machine head with electronic middle presser foot and 100w laser power (130w laser can be selected for thick material cutting), which can be used for opening pockets (single-side or double-side) and plackets.
- Sewing range: clothing, shoes and hats, bags, front and back pockets of men's and women's trousers, inner and outer pockets of suit jackets, trousers, sweatshirts, sun protection clothes, school uniforms, sportswear, workwear jackets, uniforms, parkas, wiuses Mitsubishi pattern machine head with electronic middle presser foot and 100w laser power (130w laser can be selected for thick material cutting), which candbreakers, T-shirt plackets, etc.

### SPECIFICATION

Machine Model	KL-3525-JG
Drawing system	Rotating shuttle
Security	high
Voltage	220V
Sewing range	24x20cm
Draw diagram	Quick printing
Needle	DPx17
Power	850W
Cooling water tank	JL-3000
Smoke pipe	3 meters
Foot switch	2
Laser lenss	PVD
Fixture function	Automatic / multi-function
Work efficiency	You can open 3-4 pockets a minute
Fixture direction	Portrait /landscape options are available
Infrared positioning lamp	2

## KL-3520-2L

激光开袋机

Laser Bag Opening Machine

### FEATURE

- Multiple language options, easy to learn, saves time, labor and effort, supports computer printing;
- Using infrared positioning, positioning is more accurate.

## KL-3020SH-15

全自动枕头机 (机头升降、单孔)

Computer pattern single hole pillow machine  
(nose lifting,single hole)

### FEATURE

- This machine is suitable for sewing extra-thick/medium-thin cushions. It has a larger internal operating space and a higher lifting height than traditional cushion sewing machines. It has a larger material placement space than traditional pillow machines.
- The lifting height is 15cm, the Sewing range 30\*20cm,round hole positioning and it can be used for thick and thin pillows.
- The pattern sewing mold can be customized, and customers can choose different patterns according to different products.

### SPECIFICATION

Machine Model	KL-3020SH-15
Specification	Pillow is special
Max.Sewing speed	Adjustable from 2000 to 3000rpm
Needle	Mt190140#
Number of needles	Single needle
Automatic Work Clamp Lifter	Cylinder
Motor	750W
Power source	50HZ 220V
Weight	210KG
Overall dinmensions	1100x1200x1600

## KL-3020MH-15

全自动枕头机 (机头升降、多孔)

Automatic porous pillow cushion machine(nose lifting,multiple holes)

### FEATURE

- This machine is suitable for fully automatic sewing holes of medium and thin cushions. One person can take care of 3 machines, saving labor.
- The lifting height is 15cm, the Sewing range 30\*20cm.
- Customizable molds include 21 holes, 9 holes, 4 holes, rectangle, circle, etc. Customers can choose different molds according to different products.
- The computer touch screen can customize any graphics.

### SPECIFICATION

Machine Model	KL-3020MH-15
Specification	Pillow is special
Max.Sewing Speed	Adjustable from 2000 to 3000 rpm
Needle	Mt190 140#
Number of needles	Single needle
Automatic Work Clamp Lifter	Cylinder
Motor	750W
Power source	50HZ 220V
Weight	195KG
Overall dimensions	1200x1150x1650mm

KL-3020HP

六倍旋梭厚料花样机

Six-fold Rotary Hook Thick Material Pattern Machine  
(30\*20cm)

FEATURE

- This machine can easily sew 20mm thick seat belts.
- The maximum sewing range of this sewing machine can reach 600\*400mm.
- Six times larger hook: equivalent to the winding capacity of three hooks on ordinary machines, reducing the bottom line change by more than 60%.
- Turbine needle cooling system: effectively solves the problems of high-speed running friction needle heating, belt tension damage, thread breakage, etc.
- Automatic hook cleaning function (optional): can effectively solve the waste generated during sewing and improve sewing stability.
- New system: smarter, more penetrating, higher sewing precision.

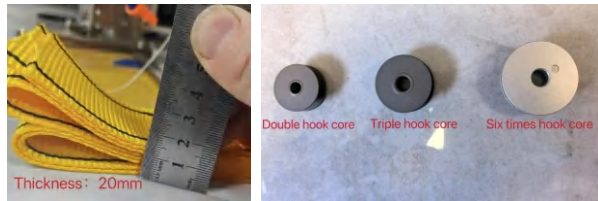

SPECIFICATION

Machine Model	KL-6040HP	KL-3020HP
Sewing area	600X400MM	300X200MM
Stitching type	Single needle lockstitch	
Max speed	2000	
Stitching pitch	0.1mm-16mm(minimum resolution 0.1)	
Max stitches	1000 stitches/pattern	
Max patiens	Store 1000 fuselage design,external usb design for unlimited	
Hook	six times larger hook thread capacity, reducing the thread change by more than 60%	
Maximum sewing material thickness	20mm	
Needle	DY*3 #26 #27	
Work holder lift	30mm	
Stepping foot lift	28mm	
Stepping foot stroke	4-10mm	
Presser foot system	motor	
Needle cooling	The turbine needle cooling system effectively solves the problem of needle heating caused by friction during high-speed operation	
Automatic hook oiling and cleaning	Timed automatic oil supply to reduce mechanical friction	
Machine area	1630x1380x1250mm	1200x1200x1250mm
Weight	290kg	235kg
Export gross weight	358kg	295kg
Export packaging size	1690x1420x1400mm	1300x1300x1450mm
Product uses	Widely used in automatic sewing of thick material products such as tensioners, tie straps, suspenders, etc	

KL-6040HP

六倍旋梭厚料花样机

Six-fold Rotary Hook Thick Material Pattern Machine  
(60\*40cm)

KL-204-107

登山绳专用电脑花样机 (12x2cm)

Electronic Pattern Sewing Machine Specialized  
For Climbing Ropes(12x2cm)

FEATURE

- This machine is suitable for fully automatic sewing holes of medium and thin cushions. One person can take care of 3 machines, saving labor.
- The lifting height is 15cm, the Sewing range 30\*20cm.
- Customizable molds include 21 holes, 9 holes, 4 holes, rectangle, circle, etc. Customers can choose different molds according to different products.
- The computer touch screen can customize any graphics.

KL-733A-3020

单针电脑特厚花样缝纫机

Extra Heavy-Weight Material Extra-thickThread  
Electronic Pattern Sewing Machine(30\*20cm)

KL-204-3020

特厚料花样机

Extra Thick Material Pattern Machine

FEATURE

- This machine is special design for obtaining reinforcing seam on extremely heavy duty materials by using very thick thread.
- This machine adopts thread take-up cams and large shuttle hook, which are good for sewing super heavy material.
- The large sewing area allows it to be a versatile electronic pattern industrial sewing machine for use in many different sections of the clothing and textile industry.

FEATURE

- With going up and down cloth-giving teeth and alternate pressing foot to ensure smooth sewing in any stitch allowed and no fold despite viscous materials and very long products.
- The Sewing is neat and the track of the thread is artistic.
- With a connecting rod,the rotating speed of the main axle is raised , noise is reduced, quality is guaranteed and working life isprolonged.
- The machine can sew high-quality seams on extremely thick materials, thicker seams, and complex graphics.

SPECIFICATION

Machine Model	KL-733A-3020
USE	Extra-thick material
Sewing range	300mmx200mm
Sewing speed	700r.p.m(Needle distancce is less than 5mm The sewing speed of the large stitch is reduced accordingly)
Needle distance	1-12mm
Needle bar stroke	75mm
Height of outer press foot	32-38mm
Type of needie	Smx100 28#
Swinging shuttle	Japan 733 jumbo swing shuttle

KL-AK221-MST/AK430D-MST

自动剪缝魔术贴机

Automatic Cutting-sewing  
Velcro Machine

FEATURE

- 10-hour output 8,500 pieces/person, and reduce one tape cutting machine and one tape cutting machine operator;
- Replacing the die can realize rounded, right-angled, beveled, etc, sewing;
- The feeding speed can be adjusted according to the operator's gesture, and the worker only needs to put the fabric allows for easy sewing without tape cutters;
- The whole roll of velcro is automatic allysewn according to the length, width, cutting and feeding to the sewing area;
- Simple installation, no need to rely on skilled workers;
- Efficient automatic feeding and automatic cutting system. Stable quality velcro automatic sewing;

SPECIFICATION

Machine Model	KL-AK211-MST(KL-AK430D-MST)
Use a sewing machine	2210(430D) Electronic Pattern Machine
Stitches	Single needle lockstitch
Max.sewing area	220mm*100mm(90mm*60mm)
Feeding device	Intermittene feeding(pulse motor drive)
Stitch length	0.05-12.7mm
Max.sewing speed	2700rpm
Motor	AC-servo motor 750W
Power supply	single phase 220V
Air pressure	0.5Mpa 1.71/min
Work clamp	2-stage,pneumatic
Velcro feed length	10-150mm
Velcro feed width	10-50mm
Die selection	Flat knife/Round knife
Remarks	Custom sizes can be made as needs

单头大面积绣花机(500\*1200/700\*1500)  
Single Head Large-area Embroidery Machine  
(500\*1200/700\*1500)

### FEATURE

- The optional sizes are 500\*1200mm and 700\*1500mm to meet various sewing needs. The embroidery area can be customized according to customer needs.
- The above two models are single-head computer large-area embroidery machines, suitable for all kinds of large pattern embroidery, such as wall cloth, banners, clothing and other products.
- Can be install sequin, simle cording, beading, laser cutting and other functions.

### SPECIFICATION

Machine Model	KL-1201F
Computer	Da hao
Embroidery Area	500*1200mm/700*1500mm(Can be customized)
Needle Number	9/12/15
Max Speed	1200r.p.m

## KL-1201CT-C

单头平绣加毛巾绣绣花机  
Embroidery Machine Mix Head(Flat+Chenille)

### FEATURE

- Can embroidery any flower shape, any color, embroidery flowers, trees, animals, graphic cartoons, etc. It has the characteristics of hierarchy, newness and strong three-dimensional sense.
- It has the function of rotation, scaling, editing and repeated embroidery of patterns: stitch compensation function and complementary embroidery function.
- Automatic conversion of embroidery mode: the settings of towel embroidery and chain embroidery can be converted, and automatic mantel selection can also be carried out.

### SPECIFICATION

Machine Model	KL-1201CT-C
Working area	500X800mm
Needles	12 colors(flat), 6 colors(chenille)
Speed	1000 RPM(flat), 700 RPM(chenille)

## KL-1201CT-T

### 单头平绣加盘带绣绣花机

Embroidery Machine Mix Head(Flat+Tapping)

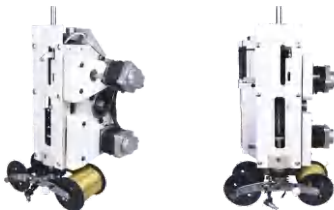

### FEATURE

- The embroidery is automatically controlled by computer without manual intervention to achieve automation and standardization of embroidery.
- Realize automatic color change in embroidery according to the beautiful color configuration of patterns.
- In the process of embroidery, if the thread or the bottom line is used up or broken, the machine will automatically stop and give an alarm to report the position of the machine head.
- After finishing the embroidery of a certain color or a certain area, the machine will automatically cut the thread, and then automatically change the color or continue the embroidery after crossing the frame according to the requirements of the setting.

### SPECIFICATION

Machine Model	KL-1201CT-T
Embroidery area	500*500mm
Needles	12(flat embroidery)
speed	1000 RPM(flat)/850 rpm(cording)

## KL-1201CT-B

### 单头平绣加珠绣绣花机

Double Bead Device for Embroidery Machine

### FEATURE

- Application for glass beads: More compatible can work with more different sizes beads 1.7mm, 2.0mm, 2.5mm, 4.0mm glass beads.
- Installation: Can be installed on flat embroidery machine and garment embroidery machine. The initial needle or end needle of the embroidery machine.
- Remark: The device could be made as per customer's demand for special sized beads.
- You can choose single color bead device or double color bead device according to your needs.
- Beads and embroidery thread perfectly match make embroidery design better.

### SPECIFICATION

Machine Model	KL-3020MH-15
Max Speed	Equipped with High-Speed Embroidery machine: 1000RPM Equipped with Normal Embroidery machine: 800rpm
Width of the device	70mm

## KL-1201CT-S

### 单头平绣加亮片绣花机

Single Sequin Side Device For Embroidery Machine

### FEATURE

- Adding sequins embroidery function upon the normal flat embroidery machines, can make embroidery works with various designs and specifications, make the embroidery works look more modern, elegant, with more individuality, can be applied for making garments, curtain, bedspread, toys, decoration, arts, ornaments and craft.
- Being compatible with flat embroidery, it can make different size of sequins spangle round, 3-9MM.
- With novel design for sequins feeding system and less spangle lacking.
- Makes sequins feeding smooth, stable and cutting system accurate. Applies orientation structure and makes sequins adjusting more convenient.
- Single sequins installation as an option with front and side sequins device options.
- Computerized plus pneumatic control system making machine operation more easy, time saving, convenient to change fabric and improving the work efficiency.

## KL-1201CT-R

### 单头平绣加绳绣绣花机

Intelligent Cording Device for Embroidery Machine

### FEATURE

- Cording Machine Series is a new type product of this field which makes different effect on flat embroidery works, makes the embroidery works look more modern, elegant, with more individuality, and can be applied for making garments, curtain, bedspread, toys, decoration, arts, ornaments and craft.
- Being compatible with flat embroidery, working speed is 850-1200 rpm, it has high embroidery efficiency.
- Convenient to change the cording press foot with multiple cord feeding holes on the press foot for different sizes of cording material.
- With novel structure design for the cording system, without losing upper thread and without any gofer caused by cording material.
- With less thread broken, continuous stitches and stable embroidery quality.
- This device is a stable performance cording device. It can attach on a new or second machine. The cord diameter can be up to 4mm. the soft cording and the hard cording can be used.

本机是服装生产中不可缺少的专用设备之一，适用于棉、毛、麻、丝绸、化纤等布料钻印记孔的工作。本机体积小、重量轻，操作方便。钻印用的钢针有粗、细两种规格，钻印时操作者可根据布料特点进行选用。本机电源为单相，电压为220伏适宜不具备三相电源的用户使用。

Special features: This machine is one of necessary equipment used in clothing production. It is suitable for drill printing mark holes onto the cotton, wool, linen, silk and chemical fabric materials. It has the merit of compact size, light weight and convenient operation. The steel Needle have two standards which of thicker and thinner so as to let operator choose for it according to various clothing materials. The power source of single phase, voltage 220V is more available for those users who haven't 3-phase power.

#### AUTOMATIC CUTTING BED

- Cutter speed 6000r/min**  
High power motor combined with the new variable vibration box echnology, the cutting power reaches the industry-leading level, easily cutting all kinds of fabrics.
- Cutting tool dynamic compensation technology (knife intelligence)** Multiple dedicated sensors monitor the cutting tool running track in real time, and dynamically correct the verticality of the upper and lower blades through real-time algorithms to ensure the consistency of all cutting pieces.
- Quick sharpening knife system**  
The sharpening mechanism of up to 15000r/min keeps the blade sharp at all times and improves cutting efficiency.
- Cutter cooling system**  
Specially designed double cold cutter, providing double cooling effect, combined with software algorithm, easy to deal with low melting point fabric, non-adhesion, cutting accuracy is higher.
- Play the linesman**  
The industry-leading global algorithm, combined with the top hardware, together constitute a full-time dynamic cutting technology, to achieve real-time cutting of fabrics through the window to greatly improve production efficiency, while reducing the fabric repeated adsorption bias and connection waste
- Zero gap cutting**  
Different from software typesetting, excellent algorithms and high-precision cutting system can achieve zero gap cutting, saving more fabrics for users
- Dynamic cutting speed**  
For adjacent cutting pieces and edge cutting pieces, the cutting head can dynamically adjust the cutting speed according to the a ctual cutting area to achieve the balance between cutting accuracy and efficiency
- Tailoring job support system**  
The clipping path can be memorized in real time during clipping, and can be clipped quickly after power recovery to improve efficiency.

7. Gas cylinder can adjust the pressure, pressure is more stable.
8. Emergency stop button can rise heating plate and stop to work in case of emergency.
9. Heating plate falls automatically when the heating plate overlaps with the lower plate, higher efficient.
10. Lower plate protector cover(high temperature cover).

## KL- 2020/2525/2030/1535/4040-YD2

双工位旋转式气动烫画机(特氟龙发热板)  
Swing-away Pneumatic Double-station Heat Press  
Machine( teflon Heating Plate )

## KL- 25100/40100/60100-BF-TD2-N

多工位上滑式下吸风气动烫标机  
Up-sliding Multiple-station Bottom Suction Labeling Machine

## KL- 4040/6040/7050-TD2L

双工位上滑式红外线定位气动烫画机(特氟龙发热板)  
Up-sliding Pneumatic Double-station Heat Press Machine  
Withinfrared Positioning For T-shirt (teflon Heating Plate)

## KL- 4040/4060/5070/6080-XTD2-P

双工位下滑式气动烫画机  
Down-sliding Pneumatic Double-station Heat Press  
(machine(two Person Opposite Working)

## KL- 4080/6080/7090/700120-DZ-P

单工位下抽拉气动烫画机  
Pneumatic Large Format Heat Press Machine  
With Slide-out Base

**KL-158A**  
手动烤帽烫画机  
Roasting Cap Machine

**KL-1508**  
手动烤帽烫画机  
Roasting Cap Machine With Auto  
Open Function

**KL-38/64**  
手动烫画机(特氟龙发热板)

## KL-H400/H500/H600/H800

强制防偏粘合机(有缝带/无缝带)  
Fusing Machine Basic Type

It can be widely used in various non-flammable agents contain fabric collar, chest, cuffs, placket, cuffs, waist top fabric and adhesive products smooth stiff and resistant to washing, easy trend, the dragon it applicable to all resins collar lining, non-woven adhesive .liner.

Sensor

Adjustment motor

Adjusting Screws

## KL-MS450/MS500/MS600

自动调偏型粘合机(有缝带/无缝带)  
Auto Belt Adjustment Fusing Machine With Seamless Belt

## KL-NHG900/NHG1200 /NHG1500/NHG1600

直线式粘合机  
Linear Bonding Machine

- The machine has 15sets of heating elements,independen three-stage heating system,accurate and uniform temperature control,and can be applied to various types offabrics.
- The unique deviation correction system adopts an unbiased and unbalanced design,which greatly improves the service life of the belt and the belt adjustmen components,and is more energy-saving.
- Special pressurization system allows the fabric to be glued in the best condition.
- The extra-long 1.5-meter-long cooling zone allows the fabric to cool down quickly.
- The belt of the feed port is lengthened,which can be used by multiple people at the same time to improve production efficiency.
- Customized high-efficiency main motor,the belt speed is stable,and the adjustable range is larger,and the suitable fabric is more varied.

## KL-630-12P/15P/20P/25P

单探头检针机系列

Anti-jamming Needle Detector, Optional : Printing  
(detection Height 12cm/15cm/20P/25P)

## KL-6300-12P/15P/20P/25P

双探头检针机系列

Double Probes Full Automatic Conevying  
Series Needle Detector  
(detection Height 12cm/15cm/20cm/25cm)

## KL-20MJ

手动检针机系列

Hand-held Needle Detector

**KL-614B-624B-714B-724B-728B**

充绒机系列  
Intelligent Down & Cotton Filling Machine Series

**KL-1101GA**

单自动充绒机  
Semi-automatic Cotton Filling Machine Series

**KL-560-A/B**

吸线头机  
Thread Sucking Machine

- 1.It aims at the design for various fashions, shirts Western-style trousers, skirts. It enhances the quality increases the output, it is time & labour-saving.
- 2.The fierce air suction can remove the thread tip, dust etc, it makes the clothes appear more bright and attractive.
- 3.Visible object worktable, extra-long air suction, easy operation.
4. Low noise.

**FT101-BLC**
